Dear Sir,

I herewith enclose an urge from the neighbour of the- late Vyasarayaswami Mutt in Chickapet for perusal and kind return. You were intending to acquire the house of the petitioner. If that is done no drain need be constructed, otherwise a drain will be necessary. Kindly let me know if I can

Can build up the drain
work until the question
of acquisition is finally
settled?

Yours sincerely

My dear Sir,

I received your D.O. of the 20th Instant. I visited the Sri Gopalakrishnaswami temple in the Sri Kesavaswami Matt building Bangalore city on Tuesday the 21st idem. I found the work very satisfactory which is due to the care you have kindly bestowed on it.

Regarding the acquisition of the house adjoining the temple I think we may drop the matter for the present owing to financial & other c[illegible]

the construction of
a drain to allow the
flow of water from the
neighbouring house
and also the storm water
of the temple compound
is necessary and may
be taken up at the small
cost of Rs 75 or so which I understand can be met without exceeding the amount of the present Estimate.

During my visit
the devotees represented
to me that instead of
constructing the temple
for locating the Anjaneya idol
in front of the main,
a small temple might
be built separately in
the compound leaving the
front portion open

This requires careful
consideration.

I shall be glad to
meet you & discuss the
matter before further
steps are taken.

To ,

L. Anantasamy Rao Esquire, B.A.,

Secy., to the Govt., of HIS HIGHNESS the

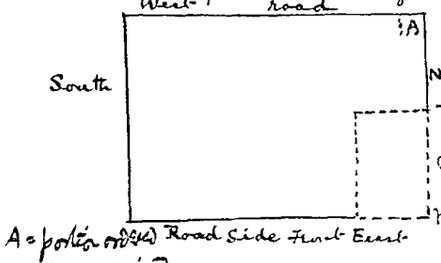
MAHARAJA of MYSORE,

Muzrai Department.

Respected sir ,

The desciples of the Mutt are highly indebted to the Muzrai Secretary for having sanctioned the restoration of the Sri Kyasaraya Mutt which is now in a dilapidated condition and the construction of a compound wall to the Mutt. In this connection we respectfully beg to represent as follows :-

(1) That all the temples and similar public buildings were formerly built generally in a square or rectangular form. But the form of the present Mutt can be shown by a diagram. Originally we presume that this Mutt might have also been built rectangular and the present dotted portion might have been given away by the Mutt long ago to the then Mathadhikari whose descendants are still occupying that bit of the ground. We request that an official enquiry be instituted to find out the truth. If the round



belong to the Mutt, that can be demolished and the Mutt made rectangular. Even if it is not the property of the Mutt, we request the land may be acquired by giving the owner some compensation and the rectangular form of the Mutt restored.

(2) After the building is reconstructed it will be necessary to appoint a servant to take care of the building and to keep it clean, and we request that you will kindly sanction a pension Rs.6/- or so including the salary of worship, the total monthly expenditure aggregating Rs.15/- Viz,

Pujari	Rs. 5/-
Servant.....	Rs. 6/-
Deeparadhana.....	Rs. 4/-
Total.....	Rs.15/-

and this may be met out of the Mutt Funds. We ~~also~~ request that you may also be pleased to sanction the construction of a small house within the Mutt premises which can accommodate a small ---- family for the use of the worshipper and also another small room for the use of the care-taker.

(3) We further beg to represent that the new building should be so adapted that HIS HOLINESS, whenever he arrives at Bangalore may get down in the Matt buildings instead of going elsewhere. One chief drawback in the building as it is now proposed to be construc -ed will be the want of a kitchen. We therefore beg that you will be pleased to consider this and kindly order the construction of spacious kitchen.

We beg to remain, Respected sir ,

I have the honor to report-
that in the Estimate sanc-
-tioned for the above, there
is a provision for constructing
a compound wall to the
south side. On this side
it appears as though the
temple premises have been
encroached upon. Request
that the boundry may kindly
be got clearly marked out

by proper authorities so as to have

it all put up.

2 From the drawing enclosed it will be seen clearly that the existing wall on the South side of the precincts of the temple as stone pillars at either extremity belonging to the line of mantapams, recently dismantled, are situated in the middle of the wall, but the owners of the adjacent house have built up, in contain parts over this wall, which is a decided Encroachment.

3 On the North also it is apparently encroached upon for a similar reason

Sir,

As desired I inspected the Sri Gopalkrishnaswamy Temple premises in company with Mr. Lakshmana Rau a few days ago and found the Temple land encroached upon by the neighbours on all sides. That there has been an encroachment may be evident from the stone pillars now standing in the Temple compound.

The whole question is one of easements. The proper course, so far as I think, would be to ask the Amildar as the Officer in charge of the Muzrai Institutions to issue a notice to the parties concerned warning them of the damage that is likely to be caused by running up a compound wall around the Temple.
